Yacht Operations Manager - Lefkada

Yacht Operations Manager

Lefkada, Ionian Islands, Greece

Description:

We are an established yacht fleet operator providing a small but growing fleet of catamarans for charter in Greece. We operate from Lefkas and Preveza. The successful candidate must possess, or be able to obtain, a valid Passport with an expiration date later than your initial term of employment and be in a good physical condition.

The Yacht Operations Manager is responsible for all marine operations in Greece.

Primary responsibilities include:

- Coordination and oversight of marine activities including yacht base operations, yacht maintenance, transportation and delivery of yachts,
- Commissioning of new yachts.
- Management and supervision of other team members.
- Other duties assigned by the CEO.

Responsibilities:

- Ability to live and work productively
- Work and communicate effectively with a diverse group of people, field station staff and others, providing and obtaining needed information to ensure smooth operations.
- Supervise staff, or help plan, direct or convey work instructions to other staff or third party contractors.
- Independently analyze and diagnose problems then develop and implement appropriate solutions.
- Consult with CEO to develop plans for resolution of unusual or complex problems.
- Identify and disseminate lessons learned, best practices and methods, tools, consistencies and inconsistencies across seasons.
- Coordinate Yacht maintenance schedules and winter layup maintenance schedules.
- Control the maintenance done on each boat daily during winter layup.
- Daily monitor the schedule of the team members
- Keep track of spare parts, renew stock when needed.
- Keep track with log books of the operation of each boat
- Keep track of all the safety equipment onboard of each boat renewing when necessary
- Keep track of yacht inventory renewing when necessary
- Base operations during summer charter season, including check in /out
- Quality Control the cleaning of each boat prior to hand over to clients
- Maintain yachts in good order during summer season
- Keep track of all cleaning materials, renew stock when needed
- Ensure the guest satisfaction
- Ensure the good atmosphere at work for the team members
- Organise weekly training for the team
- Report to the CEO regularly.

Working Conditions/Physical Effort:

Will work 5 days per week, in variable weather conditions (hot, humid, wet), occasionally at a remote location, and under physically demanding circumstances. These conditions will involve considerable physical exertion and/or muscular strain.

Requirements:

Minimum Qualifications:

- Bachelor's degree and 3 years relevant work experience in the marine field, or equivalent combination of education and experience.
- English language skills to Cambridge Lower standard.
- Fluency in Greek
- Skippers sailing licence.
- Powerboat licence.
- Minimum 2000 nautical miles days documented record of underway sailing experience or similar documentation.
- Experience maintaining diesel and gasoline engines, conducting preventative maintenance, and trouble-shooting and performing minor mechanical and electrical repairs while out on the water.
- Knowledge of main yacht mechanical and electrical systems.
- Knowledge of yacht electronics
- Basic First Aid and CPR certification.
- Experience providing education or interpretation about sailing techniques to a lay audience.
- Experience using common software applications such as Word, Excel, Web browsers, etc.
- Experience performing physical work and ability to lift 30kg.

Preferred Qualifications:

- Minimum licensed RYA Ocean master
- English Language to Proficiency level
- Additional languages such as French or German
- Ability and willingness to apply science to guide decision-making and activities.
- Ability to apply marine safety to guide decision-making and activities.
- Knowledge of current trends and practices in marine safety.
- Excellent communication skills via written, spoken and graphical means.
- Ability to maintain, troubleshoot and repair electrical, pump, steering and other boat systems.
- Experience repairing and servicing diesel and gasoline driven vehicles and equipment.
- Ability to operate a motor vehicle and possession of a valid driver's license.
- Factory certifications, marine trade education certification or certification in gasoline & diesel marine engines preferred.
- Ability to manage time and diverse activities under deadlines while delivering quality results.
- Ability to perform physical work, sometime under adverse conditions or in inclement weather.

Benefits:

Our company offers competitive compensation, full social insurance dues, excellent benefits, flexible work policies and a collaborative work environment. We also provide professional development opportunities and promote from within. As a result, you will find a culture that supports and inspires personal achievement and personal development, both within the workplace and beyond.
